After spending months trying to find a location to further expand, we were fortunate to be recommended to Dunston Business Village. It is quite a remarkable relaxing and prestigious rural environment, yet close to Stafford and next to the M6. We couldn't have dreamt of anywhere more ideal. Above all, it is a pleasure to do business with those involved who have a similar policy to us - do things so all parties involved are happy and proud - and not just for the quickest fast buck. The real profits follow naturally. A deal was completed quickly with the owners and the words 'welcome on board' when we signed up were sincere and appreciated.
