Dear Adrian

We have now been at the village for almost four months and I thought that this would be an appropriate time to say how much we all enjoy being here in the excellent working environment you have created.

From your initial welcome and guided tour when we came to view, we knew that we had a hands on Landlord, always keen to assist and to be flexible as to accommodation requirements. Now that you have moved your own office on to the site, this is an even greater help to all of us as tenants, and we really do appreciate your positive "can do" approach.

You are creating a real community, with like minded hard working small firms in a set of buildings that really do seem to work for the needs of the 21<sup>st</sup> century.

Thank you for what you have done for us and long may your success continue.

With best wishes,

Yours sincerely
