

DUNSTON BUSINESS VILLAGE - TESTIMONIAL

I moved into my office in Barn 4 at the beginning of April 2012. I can honestly say that it has been one of the best business decisions I have made. Previously, I ran the administration and design function of my leadership development company from home. Whilst experiencing the cost benefit of working from home, I was beginning to run out of space and often found it difficult to get motivated.

Moving to Dunston has made such a difference. I now experience an amazing rural location, free parking, excellent space and friendly neighbours and support services. I can now invite clients and stakeholders to my office for a meeting, and I'm proud to show them around the site.

Technology has been made so much simpler with excellent internet connections and there's always help on hand if required. Just in my own motivation to come to work, as well as the benefits stated above, the office pays for itself each month.

I would highly recommend the location and especially recommend Adrian and his team for making my work more enjoyable and productive.
